

Panda Dao

A FULLY DECENTRALIZED INCUBATOR

WWW.PANDADAO.ORG

t.me/myPandaDao

Introduction

Panda Dao is the incubator based on Binance Smart chain with innovative product launches, where community gets rewarded in ecosystem tokens. PDAO is the token of Panda Dao ecosystem, holding PDAO will give users voting rights for the development of ecosystem, also when you trade, each transaction has a 5% fee applied, which will be redistributed instantly to all holders of the PDAO token. Our focus is to build innovative DeFi products for BSC and support fair launches for the community. The ecosystem consists of four main offerings initially and will expand the product lines after the first four releases

\$PDAO

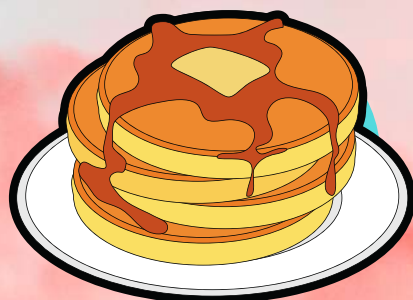

PDAO is the token of Panda Dao ecosystem, when you trade, each transaction has a 5% fee applied, which will be redistributed instantly to all holders of the PDAO token.

The great thing about this mechanism is that holders will be earning rewards ~~without~~ staking or any interaction with smart contract.

PDAO is also a governance plus utility token, using which the community can exercise rights on development of projects from our ecosystem.

Coming soon on PancakeSwap.

DimSum

DimSum(DMS) is a second layer synthetic assets built on top of Pancake Swap. Within DimSum, users will be able to create and trade synthetic assets.

Cryptocurrency-based synthetic assets aim to give users exposure to a variety of different assets without needing to hold the underlying asset.

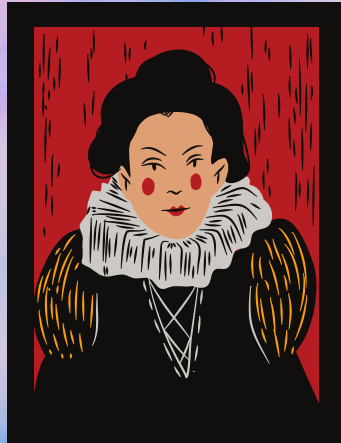

This could be anything from fiat currencies, such as the United States dollar to commodities like gold or silver.

DMS is the token for synthetic assets.

On 20.03.2021 23:59 UTC, holders of PDAO will be airdropped DMS tokens in ratio of 1:0.5 and liquidity providers in ratio of 1:1

NFT Marketplace

NFTs are a revelation of this century and it has truly transformed the life of artists.

Panda Dao will be launching a fully decentralized with easy to use interface NFT marketplace, allowing users to trade and mint NFTs.

More details will come at the launch of our Launchpad.

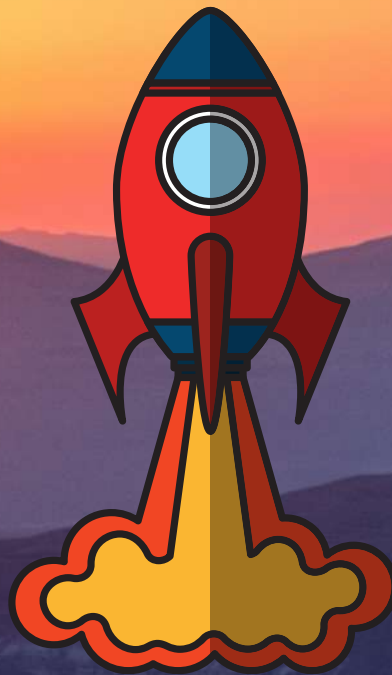

Launchpad

Panda Dao launchpads are fully decentralized. Our community will have the advantage of participating in presales through our launchpad platform.

The fees generated from launchpad will be used to buy back Pdao tokens from the market.

TOKENOMICS

\$PDAO

TOTAL SUPPLY : 100,000,000,000 PDAO

Marketing & Development : 10,000,000,000 PDAO

Pre Sale : 60,000,000,000 PDAO

1 BNB = 200,000,000 PDAO

Listing Price 1 BNB = 120,000,000 PDAO

Liquidity : 30,000,000,000 / 250 BNB

TOKENOMICS

DimSum(\$DMS)

TOTAL SUPPLY : 900,000,000,000 DMS

Marketing & Development : 45,000,000,000 DMS

Yield Farming = 300,000,000,000 DMS

Airdrop to PDAO holders = 100,000,000,000 DMS

On 20.03.2021 23:59 UTC, holders of PDAO will be airdropped DMS tokens in ratio of 1:0.5 and liquidity providers in ratio of 1:1

Thank You
